

# Like clean water?

## Help us restore a healthy Buffalo Niagara!

Buffalo Niagara RIVERKEEPER has a program to repair the shorelines of the Niagara River and its tributaries. RestoreCorps needs volunteers to plant natural habitat that will eventually make our water cleaner!

- Meet new, like-minded people
- Plant native trees and shrubs
- Build Rain Gardens
- Stabilize shorelines to decrease erosion
- Help native wildlife
- All equipment provided
- No experience needed

The Great lakes contain one fifth of the worlds fresh surface water. Four of the five Great Lakes drain into the Niagara River. Pollution is a huge problem, but we can do something about it!
